

### English:

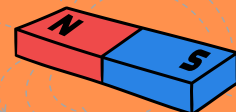

This term the children will be looking at the features of an explanation text where the children will learn to write in a factual way using specific technical language. They will also learn to write a Kenning poem using a set structure to create two word verses.

### Maths:

This term they will continue to learn about multiplication and division where they will develop the skills learnt this term to begin working with 2 and 3 digit numbers. They will then learn about length and perimeter, including calculating perimeter.

### Science:

They will be learning all about sound, including how sound is created and the parts of the ear that help us to hear.

### French:

We will be looking at french numbers up to 31, calendars and birthdays.

### PE:

The children will be focusing on the gymnastic skills of balancing, rolling and jumping and OAA which develops their problem solving skills through a set of challenges during our outdoor PE lessons.

### Computing:

They will learn about weather stations and how weather forecasts are created, they will then plan and record their own weather reports.

### The Arts:

In Art they will be learning about tints and shades by mixing paints to create 3D pieces. In music they will learn about the history of rock 'n' roll and learn to create and play a walking baseline.

### Geography / History:

In History, they will be learning all about the Ancient Mayans. They will learn all about their Gods and their way of life and how it has impacted our lives today. In Geography, they will be learning all about Antarctica, including those who choose to live in such a harsh environment.

### RE / PSHE:

In RE they will be looking at how religious groups in the Christian and Hindu faiths contribute to society and culture in the local area and beyond. In PSHE they will be looking at their own strengths and weaknesses and how these can affect themselves and others.
